PRIMALOFT®

PrimaLoft® Silver, PrimaLoft® Black and PrimaLoft® Gold Insulation Luxe are world-leading synthetic insulation materials. They outperform other competitive synthetic insulations, trapping the heat better in both wet and dry conditions. All PrimaLoft fibers are specially treated with a proprietary finish that prevents them from absorbing moisture and keeps the fibers very dry in wet conditions, which is key to help the body retain a comfortable temperature, staying warm and conserve energy. PrimaLoft® Black Insulation is made out of 60%-recycled post-consumer materials.

VENTAIR®

Vent Air represents the latest in cutting edge fabric technologies. It offers wind and water proofing in combination with excellent ventilation and moisture transport. Vent Air Wind provides protection in chilly conditions with low bulk and a soft comfortable finish.

SUSTANS® DUPONT™ SORONA®

Sustans® Dupont™ and Sorona® is made out of renewable fibers. The Sustans® production process is using 30% less energy and consists of 37% renewable fibers compared to common insulation materials.
